

# TED J. ANTON

(708) 712-4877 | [tedjanton@gmail.com](mailto:tedjanton@gmail.com) | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

## SKILLS

JavaScript, TypeScript, React, Redux, Jest, Cypress, GraphQL, PostgreSQL, HTML5, CSS3/SASS, NewRelic, Retool, Material UI, NextJS, Python, Flask, SQLAlchemy, FastAPI, OAuth 2.0, AWS, Object-Oriented Programming, Test-Driven Development, NodeJS, Git, Heroku, PHP, jQuery, Docker, ExpressJS, Sequelize, MySQL, REST API

## EXPERIENCE

**Vault Health** - Full-Stack Software Engineer

July 2021 - present

- Spearheaded a diagnostic integration with a new fulfillment provider by writing the technical specifications, designing distributed architecture solutions utilizing a customized suite of AWS tools, leading all technical calls with external and internal stakeholders, creating and hydrating all implementation stories, and more
- Engineered a medical record export feature in the EHR, giving medical staff the ability to customize and dynamically generate PDF documents for patient and billing needs
- Wrote complex Python scripts to migrate CSV data and manipulate 10M+ records across multiple PostgreSQL databases, processed asynchronously with cloud tools including AWS SNS, SQS and Lambda
- Implemented and maintained multiple API clients to interact with 3rd party labs, insurance billers, and vendors, all with 100% test coverage to ensure software stability and reliability
- Established position as a modern React front end subject matter expert by leading Lunch & Learns on advanced hooks and component testing strategies, providing constructive criticism in code reviews both within and outside the team, and participating in pair-programming to unblock teammates
- Took initiative to keep the codebase healthy by implementing automated pre-commit hooks and linting rules for proper code style, ticketing bugs and implementing fixes when discovered, and writing documentation on internal coding best practices

**Ticketmaster | Live Nation** - Marketing Manager

February 2016 - May 2021

- Generated \$60M+ in incremental revenue as marketing lead for multiple national tours by building historical Google Analytics reports to plan and implement multi-channel, creative campaigns while providing exceptional client service for Tier 1 accounts
- Built easy-to-use, customizable marketing plan templates with supporting documentation for the entire team, described by the SVP of Touring as being “the most valuable marketing document created in years”
- Drove the highest engagement rates to date on brand social media channels by producing a global touring artist campaign
- Created, presented, and hosted Q&A to share business updates for 150+ attendees at an annual, national touring conference

## FULL STACK PROJECTS

**VjDj** - A pixel-perfect Spotify clone with music videos (PostgreSQL, Python, Flask, SQLAlchemy, Javascript, React, Redux) [live](#) | [github](#)

- Designed an intuitive drag-n-drop playlist editing React component with a custom backend sorting algorithm to re-index user playlist edits and store updates in Redux state in real-time
- Built a fully-functioning music player with React that persists when navigating throughout the site by setting interval functions, using advanced React hooks, tracking state with context, and handling Promises with audio file actions
- Boosted speed of application with an Object-Oriented Programming approach by building custom model class methods to query a PostgreSQL database as quickly and efficiently as possible

**BREWED** - An UNTAPPED clone for coffee shops (PostgreSQL, Python, Flask, SQLAlchemy, Javascript, React, Redux)

[live](#) | [github](#)

- Demonstrated database design expertise by spearheading our Flask / SQLAlchemy architecture and executing RESTful API calls
- Collaborated with three developers and identified strengths to separately execute features with an efficient Git workflow
- Hosted site resources in AWS S3 so that media could be easily accessed within an ORM

## DIVERSITY & INCLUSION

**LGBTQ+ Employee Resource Groups** - Vault Health and Live Nation Entertainment

- Successfully pitched the importance and benefits of having Employee Resource Groups to the Vault Health’s Senior Leadership
- Hosted all Vault Health ERG virtual events, sourced community volunteer opportunities, managed all budgeting, and more
- Earned Live Nation’s “Rock Star” award for successfully launching a company-wide “Gender & Pronoun Inclusion” initiative and for producing the company’s highest attended events to-date, all within extreme budget constraints

## EDUCATION

**App Academy** - Full-Stack Web Development (2020 - 2021)

**Boston University** - Bachelor of Music (2010 - 2014)

**Royal College of Music** - Study Abroad (Fall 2012)
